

Name _____

CASE

Laboratory Safety Agreement

Students in the laboratory always act in a safe manner and abide by all safety procedures outlined in the *CASE Safety Manual*, task procedures, and the rules below.

1. Wear proper personal protective equipment (PPE) including safety glasses, disposable gloves, and a lab coat or apron during procedures in the laboratory.
2. Keep the workstation clean and orderly.
3. Move carefully and intentionally to avoid accidents, spills, or bumps.
4. Report all accidents and broken equipment to your teacher immediately.
5. Food, drink, and other contaminants are not allowed in the laboratory.
6. Only use the equipment you have been instructed and given permission to use.
7. Use all tools and equipment for their specific purposes.
8. Follow recommended procedures with care and caution.
9. Label all samples and chemicals clearly as instructed.
10. Dispose of all items in properly marked receptacles. Ask if you are unsure of proper disposal procedures.

I have reviewed the *CASE Safety Manual* and the safety guidelines outlined in this agreement and agree that _____ will act in a safe manner according to all specifications.
